

Learn and grow in Indiana's premier urban greenspace: Switchyard Park!

Bloomington Parks and Recreation is seeking volunteers to help manage the extensive and varied Switchyard Park landscape.

Our volunteers receive:

- a broad understanding of ecological gardening practices, and of the complex management of dynamic plantings
- the knowledge that the greenspace at Switchyard Park inspires an appreciation for the value and beauty of native plants—and a commitment to protect the habitats that sustain them
- a wide range of maintenance activities in native plantings, rain gardens, wetland restoration and native tree plantings
- a unique role on the Switchyard Park garden team and the opportunity to assist with the maintenance of the formal gardens, seasonal container displays, and legacy plant collections.

A typical season includes plantings in April and May, and ongoing weeding and cleanup care from March through November.

Contribute to conservation

Master Gardeners, gardeners, and students are warmly invited to join our team of Adopt-a-Greenspace volunteers at Switchyard Park.

For more information about how to become a Switchyard Park volunteer, contact:
